FIRE SAFETY IN THE KITCHEN

Practice fire safety in your kitchen.

Never leave cooking unattended.

If a fire should occur on the stove, slide a pan lid over the flames and turn off the heat. If a fire breaks out in the oven, keep the oven door closed and turn off the heat.

Always keep a fire extinguisher in the kitchen – and make sure it's kept in an easy place to reach, away from the stove and oven.

This message brought to you by Southern Region EMS Council and your local EMS Personnel.
